- Jira, Asana, Mavenlink, Bugherd, Confluence

EXPERIENCE

January 2020 - January 2023
Web Developer II
Q4 Inc. | Toronto, Ontario

- Lead front-end developer for a variety of high-profile clients including Shopify, BlackRock, Sweetgreen and Lightspeed.
- Utilized Typescript, SASS and jQuery to complete the development of investor-relations websites.
- Successfully managed migration of data and assets from existing sites to custom CMS for large scale projects.
- Implemented Adobe and Google analytics scripts on clients sites
- Built and deployed a reusable template for Investor Day events, used by hundreds of our clients.
- Assisted with developments of custom tools for our teams using React and Firebase.
- Created accessible sites following WCAG 2.1 AA, SEC and GDPR (legal) compliance.
- Worked cross-functionally with designers, quality assurance, and client stakeholders to build websites from design to deployment.

November 2019 - January 2020
Specialist
Apple | Burlington, Ontario

- Created memorable customer experiences by offering personalized sales support.
- Resolved concerns using strong communication and conflict management skills combined with expert sales abilities.
- Assisted clients with device setups, troubleshooting and showcased life presentations of products and features.

December 2017 - October 2019
Technician
Geek Squad | Burlington, Ontario

- Provided supervision for multiple associates when required. Repair hardware (windows and Mac) for new or existing clients.
- Educated customers regarding system usage and additional products and services.
- Performed maintenance, on-site setup, removal of adware/trial version software, optimization of storage space, and processors.
